NEW DELHI 3 (INDIA); }
The 5th December, 1949 }

S. P. JAIN,
for Registrar General, India.

NATIONAL SAVINGS CERTIFICATES

Are now available in three different series, maturing after 5, 7 and 12 years. The certificates yield 3%, 3½% and 4-1/6% simple interest respectively, at maturity. The 12 years certificates increase your money by 50% but if necessary can be encashed after 18 months (Rs. 5/- certificates after 12 months). The 5 and 7 years certificates can be encashed at any time.

National Savings Certificates are obtainable in denominations of 5, 10, 50, 100, 500, 1,000 and 5,000 and you can invest upto Rs. 75,000 in them (inclusive of any Post Office cash certificates held).

Full particulars obtainable from all post offices, District Organisers of the Small-Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers or the National Savings Commissioner, Simla.

TODAY'S SAFEST AND MOST PROFITABLE INVESTMENT

912

Births and deaths from principal diseases in towns with a population of over 30,000 in the Provinces of India and some of the Indian States for the week ending the 5th November 1949.

REMARKS

The figures of births and deaths shown in this statement for the week ending the 5th November 1949 relate to 182 towns with an estimated population of 23,825 thousands. The total number of towns is 216 and their population is 26,382 thousands. Thus 84% of the total number of towns representing 90% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 16,295 and 9,120 representing birth and death rates of 35·6 and 19·9 per thousand of population respectively.

(A) *Indian Provinces*.—The data here relate to 162 towns with an estimated population of 21,636 thousands. Information for Bihar and Assam could not be included. The total number of towns is 192 and their population is 23,759 thousands. Thus 84% of the total number of towns representing 91% of the total population is covered. The numbers of births and deaths recorded in these towns were 14,935 and 8,455 representing birth and death rates of 35·9 and 20·3 per

thousand of population respectively. The table at the end gives the position by provinces.

The towns of Chanda, Yeotmal and Hinganghat in C.P. recorded high death rates of 59·4, 57·0 and 53·6 respectively. In Yeotmal the high death rate was largely due to deaths from fevers. In Chanda and Hinganghat the high death rates were not due to any one of the specified causes.

(B) *Unions and States*.—The data here relate to 20 towns with an estimated population of 2,189 thousands. The total number of towns is 24 and their population is 2,623 thousands. Thus 83% of the total number of towns representing 83% of the total population is covered. The numbers of births and deaths recorded in these towns were 1,360 and 665 representing birth and death rates of 32·3 and 15·8 per thousand of population respectively. No town recorded a high death rate of 50 or over per thousand of population.
